Dr. Brittany Johnson-Matthews

(Dr. B for short)

In-class Exercise #1

Find a Java class from github or something one of you wrote.
Any Java class works.

Critique the coding style as a group:

Does it exhibit an apparent coding style?

Is the coding style consistent?

Which style decisions do you agree and disagree with?

Be prepared to discuss with the class!

In-class Exercise #2

Find a coding standards document online.

Pick the programming language as a group.

Discuss and document the following as a group:

- the requirements

- agreement or disagreement with the standards

- anything you think was left out

Be prepared to discuss with the class!
